MANY BIDDERS IN THE CITY

School Board Will Let Con-
tract for High School
Building this Evening

The Local Firms Bidding—
Contractors From Other
Places.

At 5 o'clock this evening the city school board will award the contract for the erection of the new Graham high school building for which bonds to the extent of \$40,000 have been issued. The meeting will be held at the office of Gates Sexton, president of the board, which is located on the second floor of the law building on East Second street. The new building is to be erected on the site of the old one.

It is expected that there will be at least twelve or fifteen bidders. Several are already in the city and have been in conference with the school board today. More are arriving on every train. Two local contracting firms will bid on the contract. The bidding is expected to be close and lively. Those firms that have notified the board that they will bid are: Wilk & Kenner, Rushville; Morris Winship, Rushville; Illingworth & Co., Muncie; Burk & Smith, Muskegon, Mich.; Sanders & Detamore, Winchester, Ind.; Cline & Wilt, Portland, Ind.; and J. Lichtenberger, Bluffton, Ind. Nearly all of the firms that bid on the contract for the erection of the Jackson school building are expected to bid on this contract. Architect Danlap is here to assist the board and to superintend the granting of the contract.

GETTING ANXIOUS ABOUT THE CARS

The Shelbyville People Want
The New I. & C. Equip-
ment.

Tuesday's Shelbyville Republican says: William Cheney, the I. & C. agent, said this morning that the public has a wrong impression in regard to the whereabouts of the new cars that are to be used on the Shelbyville line as soon as the Greensburg extension is completed.

"Many people have gone to the power house within the last week or two and have asked to see the cars," said Mr. Cheney this morning. They say they understood that the cars had been brought here from Rushville. That is a mistake. The six cars are still at Rushville and will likely remain there until they are needed for service. There is much to do to the cars before they can be run. As they came from the factory they were minus all equipment, which included electrical machinery and the like. All that is being installed in them at the present time."

There is a splendid opening for a company here. Ninety-one names have been enrolled as prospective members of the company here.

Upon motion of Mr. Frazee, City Clerk Lakin is instructed to notify the C. H. & D. railroad to put in a board crossing at the intersection of its tracks with those of the I. & C. traction company.

After allowing the usual claims, council then adjourned to meet Friday, July 27th, at 7:30 p. m. to hear the property owners affected by the improvements ordered on Fourth, Tenth and Eighth streets.

INCENDIARY FIRE AT LAUREL MONDAY NIGHT

Laurel suffered Monday night from another of the many fires that have marked its record in recent years. A large barn and valuable contents owned by Albert Cloud was destroyed. There were 300 bushels of corn in the barn, several tons of hay, harness, tools and other property, all of which was uninsured.

Suspicion points to a boy, who has recently been in trouble on other charges, as the one who set it on fire, as he was suspiciously near when the fire was discovered and it is said had been heard to make threats.

The outlook for the Chautauqua this year is very bright. The seat sale continues satisfactory.

—Mrs. John Albertzart, who has been the guest of friends here for the past two days, returned home to Richmond this evening.

RAILROADS AGREE TO PLACE A WATCHMAN

City Council Defers Action on
C. H. & D.—P. C. C. & St. L.
Crossing Ordinance.

The city council did not take any action upon the ordinance introduced at the meeting last night, compelling the P. C. C. & St. L. R. R. and the C. H. & D. R. R. to place a flagman at the crossing of their tracks in this city. Action was deferred until the next regular meeting.

The ordinance introduced requires that the two companies jointly or severally to maintain a flagman at the crossing, said flagman to be on duty within thirty days from the taking effect of the ordinance. The ordinance requires that the flagman be over 21 years of age and that he be on duty six days in the week, from 7 a. m. to 6 p. m. He shall flag all trains on either road and warn them of the approach of trains on the other. For a violation of the ordinance the company found guilty shall be fined in any sum not exceeding \$100. The ordinance, if passed, shall go into effect upon proper publication.

A letter from Bushrod Taylor, superintendent for the Pennsylvania to Mayor Hall was read to council at the meeting last night. The letter said, in part: "I beg to submit for your consideration and the consideration of the council the fact that the respective companies have agreed upon the installation of a signal and the maintenance of a crossing watchman, which in my opinion will fill the requirements of the situation and the recommendations of the railroad commission."

"The agreement covering the situation was by me forwarded to the C. H. D. officials for execution on June 1st, and I hope it may be consistent for the council to defer action with reference to this matter and beg to assure you that I will use my best efforts to expedite the completion of the plan contemplated."

FOUND WIFE AT THE HOTEL

Rushville Woman Had Her
Paramour Detected at
Connersville.

Connersville Police Assisted
Irate Husband in Locat-
ing the Pair.

Tuesday's Connersville Examiner says: "Quite an episode with accompanying variations which discloses the unfaithfulness of a supposed true wife, had a Connersville hotel for its place of unfolding, and principal action as well, at an early hour Monday morning, according to reports that have just begun to spread."

Saturday night two couples, strangers here, entered the hotel, as the story goes and registered, each couple being assigned to a different room. Each couple registered as man and wife and the suspicions of the hotel attaches were not aroused. They remained at the hotel until an early hour Monday morning.

Not long before the end of their little carousal came, a Rushville citizen arrived in town, and, the report says, at once secured the services of the police department in looking up the location of his wife. The man visited the hotel with one or two of the "coppers," and after examining the hotel register, pointed out a couple of names and the number of the room indicated, whom he thought was his wife and her paramour.

The room was at once visited if the report current is correct, and the officers accompanied the inquiring husband to the door. A knock brought a prompt response from the inside but as the door was opened there was immediately something doing. There was the guilty wife and her companion.

There was not a great deal said by the parties, but as soon as the woman could get her clothes on she left the hotel with her husband. However, the way he jerked her through the halls and hotel office was evidence of what might happen later.

The other couple, it is said, were not disturbed and neither was the man who was so suddenly and effectively separated from his 'lady love.'

The woman whose husband broke up the meeting is said to live in Rushville and her paramour is an Indianapolis man. The parties are all said to be "swell" looking.

The work is divided into six departments with a vice president of each department. The official board of the local church constitutes the Board of Supervision of the League. APPROPRIATION IS FAR TOO LOW

Contractors View Noble Town-
ship Roads and Refuse
to Bid.

It will probably be necessary to hold another election in Noble township, it is said, to settle the question of improving the roads. The citizens decided in favor of macadamized roads at the recent election. According to some it is either hold another election or increase the amount of the appropriation for the work. Phil Wilk and other contractors have been looking into the matter and have traveled over the entire survey to be improved. They say that the work cannot be done inside the appropriation by hundreds of dollars. Contractors are refusing to bid on the contract, it is said.

THE NEW SUBSTATION AT SHELBYVILLE ABOUT DONE

The Shelbyville Republican says: "Work is about completed on the new substation of the I. & C. Traction company near the power house, and it will not be long until it will be turned over to the company with everything in tip-top shape for operation. The electricians are just now putting on the finishing touches."

"The new station has one of the biggest electrical transformers in the country. It is an electrical apparatus for distributing the 'fluid' after it comes over the high tension wire from Rushville and by means of it the extension from Shelbyville to Greensburg will always be supplied with plenty of power."

The company is not saying at this time who will be in charge of the substation when it is put in operation."

—Ed. Wallace, who is travelling for the Indianapolis Candy company, is in the city on business.

—Mr. and Mrs. Simp Davis returned this afternoon from a week's stay at French Lick. Mr. Davis was greatly benefited by the trip.

Shall Niagara Be Destroyed?

It is startling to read in a technical magazine over the signature of an eminent engineer, the assertion that the New York Legislature has already granted permits sufficient to absorb every drop of water that flows on the American side of Goat Island, and the completion of the projected plants is only a question of time. It seems almost incredible that the universal sentiment of veneration with which the civilized world has regarded the stupendous wonder since its discovery by Father Hennepin in 1678 should have been so blindly set at naught by the N. Y. Legislature.

But an aroused public opinion may yet find a way to frustrate cupidity. Engineers have a scheme to deepen the American channel so that it may draw off a fair share of the upper river instead of the one-tenth part that it has always received.

It would be a crime against all that is highest and best in civilization if the vandals of sordid material progress should be suffered to despoil this greatest natural wonder of the new world, if not of the globe itself.

This has renewed in those who have seen the Falls a number of times to desire to once more visit this the greatest natural wonder of the world, and no description can ever prepare those who have never seen Niagara for the awe inspiring magnificence of this mighty cataract. No better opportunity will ever be offered the people to visit the Falls than that presented by the Lake Erie & Western Railroad on their Annual excursion Thursday, August 2. They are the pioneers in this business and offer an extremely low rate on this occasion. Each train will be under the supervision of men who have had years of experience, and these gentlemen will accompany the train to the Falls, which will insure the passengers every comfort.

RUSHVILLE, IND., JULY 18, 1906.

Referring to the recent work of congress, Senator Beveridge declares it is "a national movement for the regeneration of business."

Indiana's governor is again honored by being made vice president of the policy holders "house-cleaning" committee, to reorganize the great life insurance companies.

On every hand comes the demand from Democrats that Taggart must resign. We fail to see why there is any reason for Taggart to resign, his gambling joint being closed, that did not exist before the raid, except on the theory that it's a crime to get caught at evil doing. Can that be a Democratic theory?

The Republican party is sound on the tariff question as proven by trade and industrial conditions. The State platform says on that question: "We adhere to the time-honored Republican doctrine of protection. Our commercial and industrial experiences have fully vindicated the wisdom of his great economic policy. The true policy of protection is that schedules are to be changed when experience shall suggest the change. The Republican party, the friend of the protective policy through good and evil report, can be trusted to make changes in tariff schedules whenever more good than evil will result. We recognize reciprocity as the hand-maiden of protection, and favor such reciprocal arrangements with other nations as will increase our foreign trade without injury to American industry."

The Youngest Old Soldier.

Washington, July 18.—The officials of the pension office think they have discovered in Lyndon D. Howe of Streator, Ill., the youngest volunteer of the civil war. He enlisted first in 1861 when only ten years and nine months old, and served four months, when he was discharged on account of his age. He enlisted again in 1862, when eleven years and five months old, and served until the end of the war. The record was developed in connection with an application for increase of pension, which was granted.

DEMOCRATIC REQUIEM

Was Sung When the Governor Raided the French Lick Casinos.

Indianapolis, Ind., July 18.—The casinos of French Lick valley have been a thorn in the flesh of the law and order element so long that the Republican campaign managers say that it is not difficult to see wherein their party will benefit greatly by the action of Governor Hanly and how the Democratic loss will be enhanced because of Taggart's leadership of the party and his prominent connection with the French Lick incident. On the quiet many of the Democratic leaders are taking this view of the situation. A few months ago they thought they saw a ray of hope owing to the dissatisfaction expressed over

THOMAS TAGGART.

Governor Hanly's vigorous way of doing things, but in spite of Taggart's protests that he was not connected with the game at French Lick and that he was trying to stop it, they have about concluded that it is too late to make much headway toward convincing the Democratic masses that the party is not to blame for the embarrassing conditions at French Lick, even though Taggart has been its acknowledged leader for many years. With many of the prominent Democrats the impression is deep seated that the requiem of the party was sung, for the present campaign, at least, when the casino on Taggart's premises was raided. They do not see now how the handicap can be overcome this year.

Thomas Taggart is bearing the brunt of the public criticism in the gambling cases, although the casino at his place was a new thing compared to the one at West Baden. The West Baden Monte Carlo was known throughout the entire country long before the one at French Lick Springs was established. The West Baden resort was larger and for many years was patronized by a fast lot of plungers who threw thousands of dollars into the games with as little concern as a sure-things gambler would wager a dollar after thoroughly convincing himself that he couldn't lose. Games for almost fabulous sums are said to have been common at West Baden in former days, and for a long time the real sports who visited the valley to gamble hung out exclusively there. Taggart became a factor in the valley almost before the ink was dry on the deeds transferring the French Lick hotel property to him and his associates. He put a lot of ginger into the business, and he practically accomplished a revolution in the manner of conducting things there. His efforts attracted the attention of the public to the valley and the public was not long in getting some racy stories about the famous gambling institutions. Although Taggart was not the originator of them and while his casino was not as large or as liberally patronized as that of his competitor at West Baden, the latter is escaping the bulk of the public criticism, while Taggart, according to the statements of his friends, is forced to bear nearly all of it because of his prominence in state and national politics. If he were not national chairman they say that very little would have been said about the raid of the state authorities beyond the limits of Indiana.

State Statistician Stubbs has completed a report showing that the state banks have increased to the number of 198 since the enactment of the private banking law by the last legislature. At that time there were 175 state banks. The resources and liabilities of the state banks have increased from \$40,140,406.72 to \$50,467,814.98, an increase of about 25 percent. The deposits have increased from \$31,167,630.80 to \$39,189,622.25. The undivided profits have increased from \$606,506.37 to \$1,365,131.86.

NO INDICTMENTS

Cleveland Hearing In Case of Standard Oil Is Adjourned.

LACKED JURISDICTION

That Federal District Has No Power to Proceed But Will Certify Its Information to Chicago.

Important Testimony Was Brought Out That Can Be Used All Along the Line.

Cleveland, July 18.—The federal grand jury which has been in session here investigating alleged violations of the interstate commerce laws and anti-railroad rebate laws, adjourned yesterday afternoon without bringing any indictments. The investigation was directed particularly concerning the Standard Oil company and the Lake Shore Railroad company, and was the result of testimony of witnesses before the interstate commerce commission here recently. The failure to return indictments, it is officially stated, was due to the fact that the investigation developed the fact that the court here was without jurisdiction of alleged offenses upon which testimony was given and that all of the evidence secured here is to be transferred to the federal officials at Chicago, where the cases are to be prosecuted. Following the discharge of the grand jury, District Attorney Sullivan gave out a statement in which he said that the sitting "was very important in not only developing where the prosecution of the alleged offenses should be had, but also brought out important testimony that can be effectively used all along the line, according to the program adopted by the attorney general in his earnest and vigorous campaign against corporate and individual violators of the Elkins law and the act to regulate commerce among the states."

AT A STANDSTILL

Armistice Declared in Central American War Pending Palaver.

Mexico City, July 18.—A number of minor chiefs of the Guatemalan revolution who made an invasion of the northern portion of that republic have arrived here and say all movements of the revolutionists in Guatemala are brought to a temporary standstill awaiting negotiations for peace between Salvador and Guatemala to be held on the American cruiser Marblehead.

But the men most concerned in the revolution do not look for permanent peace between Salvador and Guatemala for several reasons, one being that the insurrectionary party in Guatemala with sympathizers by the thousands all over Central America will not, it is believed, consider as final any terms which may prolong the power of President Cabrera. Were he eliminated and another man put at the head of Guatemalan affairs, the revolutionists would be contented and would welcome suggestions from the presidents of both Mexico and the United States. In this regard the revolutionists are very unanimously for General Barillas, now in this city, who was the first president of Guatemala to serve out his term and decline reelection, retiring to private life and accepting a minor office as a matter of public duty. General Toledo, now in the field, favors Barillas for president. General Barillas declares his only ambition is to bring about a change of administration in Guatemala, and to assist in carrying out a broad and liberal program. He has large estates in the department of San Marcos, where he is held in high esteem. All revolutionists deplore any action on the part of the United States that would give strength to Cabrera's administration, and they point to his record as proof that he is incapable of retaining power long in Guatemala. They allege cruelties, executions, forced loans and general despotic conduct on his part over a series of years. They affirm that it will be proved that he plotted to overturn the administration of Regalado when that soldier was president of Salvador, and has long been a disturbing element in Central American politics.

Truce Quickly Broken.

San Salvador, July 18.—Notwithstanding President Cabrera's agreement with the president of Mexico to cease fighting pending peace negotiations in Central America, two sharp engagements have occurred in Salvador just across the Guatemalan border. One was at Platanar and the other at Metapan. The Salvadorans were victorious in both engagements. Within two hours after Cabrera agreed to suspend hostilities his troops attacked the Salvadoran army at Platanar, only to be defeated by the latter yesterday morning. The fighting at Metapan occurred Monday afternoon.

Our Busy Farmer President.

Oyster Bay, L. I., July 18.—President Roosevelt yesterday did some good farming. He pitched and moved a load of hay just in time to save it from a terrific thunderstorm which swept Long Island.

POLICE ON STRIKE

St. Petersburg Guardians of the Peace Want Their Money.

St. Petersburg, July 18.—Threats of a police strike nearly caused a panic here yesterday, and though the strike has been postponed, the danger cannot be said to have entirely passed. The ostensible basis of police discontent is monetary, including the accounting of the men's savings fund, for which it is alleged they have not been allowed interest. The authorities, however, declare that the trouble was inspired by agitators.

The gendarmes of the First district refused to go on their beats until authoritatively assured that their money would be paid with full interest. The captain tried to pacify the men with assurances that everything would be satisfactorily arranged, but they would not listen to him. They then marched to the Second district, where they induced their comrades to join them.

Cossacks were summoned and the police were surrounded and threatened with arrest, but they held out until the chief of police assured them that their demands would be investigated and all wrongs righted. Notwithstanding the efforts of the police officials to quiet their fears, the people are in terror lest the lawless element abounding here should take advantage of the situation.

Chouknin's Successor.

St. Petersburg, July 18.—Admiral Skrydloff, who succeeded Admiral Makharoff in command of the Russian

VICE ADMIRAL SKRYDLOFF.

fleet at Port Arthur after the death of the latter, has been officially named as commander of the Black Sea fleet, succeeding the late Vice Admiral Chouknin.

With Fire and Sword.

Bobrouisk, Province of Voronezh, July 18.—The troubles in the whole of this district covering 135 miles square are becoming more serious daily. The peasants have risen as one man and over twenty estates have been burnt and several landed proprietors killed. This town is filled with terror-stricken proprietors who were able to escape the carnage only by fleeing from their estates. Ten miles from here fifteen estates were burnt and many of the proprietors killed. The governor has arrived with Cossacks, but order has not been restored.

Hated Chief Blown Up by Bomb.
Tiflis, July 18.—Chief of Police Martynoff, while driving in the street, was mortally wounded by a bomb. His leg and arm were blown off. The bomb was thrown from the Georgian Nobles school. M. Martynoff was much hated on account of the severity of the measures he adopted in putting down meetings and for the maltreatment of natives.

The Deadly Gasoline.

Modoc, Ind., July 18.—Miss Jessie Bell Freer, twenty-two years old, daughter of John Freer, employed as a domestic at the home of John Dutor, while filling a gasoline tank was the victim of an explosion in which she was burned so badly that her death resulted.

May Need the Grain at Home.
Harbin, Manchuria, July 18.—Until the result of the harvest in the Sungari Valley, where the crops are threatened, is known the export of grain has been prohibited.

RECEIVER SOUGHT

Latest Development In the State Agency Insurance Squabble.

A RESTRAINING ORDER

Has Been Granted Preventing Company From Making Big Payment Pending Court's Decision.

Stockholders Declare Company's Affairs Have Not Been Conducted In a Proper Manner.

Indianapolis, July 18.—Making startling allegations concerning the management of the State Agency company, Harold B. Hibben, William Scott, W. W. Critchlow and Louis C. Huesmann, a committee appointed by dissatisfied stockholders, have brought suit in superior court for a receiver for the State Agency company and for a temporary restraining order to prevent the directors of the company from paying to the State Life Insurance company \$150,000, and to a former officer of the agency company \$12,000 in commissions.

Judge Vinson Carter granted the temporary restraining order and set Aug. 20 as the date for the hearing concerning a permanent restraining order and for receiver.

The plaintiffs allege that the business of the State Agency company has been conducted in such a way that it can no longer exist with profit, and they demand that the business of the company be wound up, the assets be converted into cash and distributed to the stockholders.

SENSATIONAL DAMAGE SUIT

It Is Filed Against Prominent Residents of South Bend.

South Bend, July 18.—The sensational damage suit filed here late yesterday afternoon against Captain Edward B. Reynolds, president of the First National bank of this city, and his mother, Mrs. Jeanette Reynolds, in which \$100,000 is asked by Regina Koenke of Chicago, a domestic formerly employed in the Reynolds home, is looked on with suspicion by local attorneys. It is said that the attorney of Chicago who has the case in charge had trouble in obtaining a local representative, and that more than one lawyer was asked to take the suit. While criminal charges of a surprising nature are made against the banker, and while the mother is accused of having assisted the son by drugging the girl, the case has failed to cause a sensation because of the very enormity of the allegations and their improbable character.

Bit Off His Friend's Ear.

Hartford City, Ind., July 18.—Ode Smith, a window glass blower, is in jail accused of mayhem, while his victim, Frank Watson, is in a serious condition, the result of losing his ear in a fight. The two men had been the best of friends, but they quarreled while intoxicated. Smith was carrying a souvenir fan, which Watson jerked away from him and accidentally broke. A "mix-up" followed a wordy battle, and Smith bit Watson's left ear off and swallowed it.

Child Burned to Death.

Muncie, Ind., July 18.—Iva Ellen Beller, aged nine, was burned to death as the result of a gasoline explosion which took place as she was trying to rekindle the fire in a stove. Her three-months-old sister, who was in the room, was almost fatally burned by the flaming oil, and her father, John Beller, was severely burned while trying to rescue them. The house was entirely consumed, leaving the family in destitute circumstances.

Death of Sister Valeria.

Michigan City, Ind., July 18.—Sister Valeria, the sister superior of St. Anthony's hospital, whose face was crushed by the fall of an elevator, is dead. Sister Valeria was born in Bavaria in 1862. Her name was Minnie Heins. When thirteen years old she came to this country. She joined the order of Sisters of St. Francis at Lafayette and ever since has been engaged in hospital work.

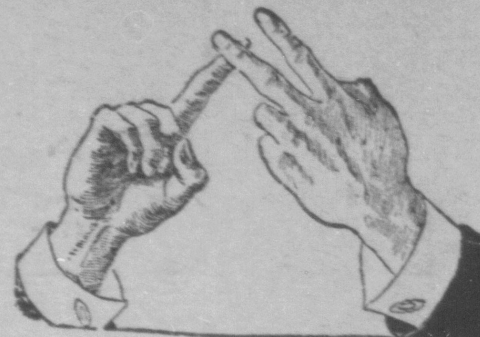

Progress of Slander Trial.

Paoli, Ind., July 18.—The suit of Simpson B. Lowe against A. C. Voris, banker, claiming \$10,000 for alleged slander, growing out of the Schafer murder case, on change of venue from Lawrence county, is making rapid progress in the circuit court. It is expected that the taking of testimony on both sides will be concluded today.

No Wonder He Dropped Dead.

Elkhart, Ind., July 18.—Larkin Pogue, aged twenty-one, a waiter at the Standard hotel, was given a \$5 bill as a tip by Henry Cole of Cripple Creek, Col. Pogue took a look at the bill, then fell to the floor unconscious and died a few minutes later in his room. Coroner Dewey pronounced it a case of heart failure.

Washington, July 18.—The navy department has received a cablegram from Para, Brazil, announcing the safe arrival of Secretary Root and his party at that city on the United States cruiser Charleston.

GROWING CLEARER

Mystery of the Forty Famous Letters Gradually Being Revealed.

VALUABLE TESTIMONY

How the Stationery of the Hartje House Came to Be Used In a Below Stairs Correspondence.

Envelopes Addressed to Coachman Were Written at Request of a Maid Servant.

Pittsburg, July 18.—Not the least important development in the Hartje divorce case was the outline of the defense that was disclosed by the testimony of Miss Ida Scott, the sixteen-year-old sister of Mrs. Mary Scott Hartje, who was put on the stand a few minutes. She testified that she had written two or three envelopes addressed to Tom Madine, the coachman co-responder, at the request of Annie Lutz, one of the maids, and that she also had given Annie sheets of her paper.

Thus the presence of the single envelope among all the love letters presented by counsel for the libellant will be explained. The charge of forgery made by counsel for the respondent will be reinforced by accounting for the presence in the disputed letters, of the paper used by the Scott girls in the manner indicated by Ida's testimony that she gave it to the maid. Her sister Helen also often gave sheets of her paper to the servants, she testified.

Mrs. Hartje's parents, Mr. and Mrs. John F. Scott, were witnesses during the day. Mrs. Scott testified that it would have been impossible for her daughter to have done the things with which she has been accused by Augustus Hartje since their separation, because she watched the daughter too closely. She claims the forty famous love letters in the case are not in her daughter's handwriting. The mother's testimony concerning the Susie Wagner letter, known as exhibit No. 6, was sensational. Mrs. Scott declared that she had seen the Susie Wagner letter before it was mailed and that there were statements in the original letter that were not in the alleged Wagner letter that was exhibited in court, and that the letter produced in court contained some statements that were not in the original and real Wagner letter. John P. Scott, Mrs. Hartje's father, declared that it was impossible for his daughter to have met Madine or to have telephoned to him, as she was never out of the house alone, and all in the Scott home usually knew when the telephones were used and who used them.

THE INQUISITIVE KAISER

He Wanted to See How Charlemagne's Relics Were Keeping.
Aix-la-Chapelle, Prussia, July 18.—The sarcophagus of Charlemagne was opened today at Emperor William's wish, and in the presence of high dignitaries of the Catholic church and provincial officials for the purpose of examining two precious cloths. These and other relics were found to be in good condition. Three documents were found dated 1481, 1483 and 1861. The older of the two fabrics dates back to the second half of the Tenth century and contains figures of four elephants. The other is of the Twelfth century. The fabrics will be taken to Berlin with Cardinal Fischer's permission by Prof. Lessing, director of the royal museum of industrial art, will be photographed and then returned and replaced within the sarcophagus. Emperor William took a lively interest in having the documents removed for examination. The sarcophagus was first opened in the year 1000 by Emperor Otto III.

Stromboli In Eruption.
Palermo, July 18.—There was a violent eruption of Stromboli today, incandescent material being thrown to enormous heights and causing serious fires on the island. No deaths resulted from the eruption, which was attended by loud detonations. The phenomenon was similar to that which immediately preceded the disastrous earthquake in Calabria last autumn, and therefore occasions great anxiety lest it be followed by a repetition of the calamity.

Shelbyville News: "Bennett and Halterman, Shelbyville's base ball favorites in the pitcher's box, certainly got it laid all over them at Milroy on Monday if reports from that town are correct. Moscow, the home town of the boys, has one of the best base ball nines in Rush county, in fact they have never been defeated for two years until they lost at Milroy. Four pitchers were batted from the box and among them were Bennett and Halterman. The exact cause of the downfall of the boys on this particular occasion could not be ascertained yesterday, but it is thought that Milroy must have run in a bunch of league players. The score was five to three in favor of Milroy.

And Now It's Chico Cigars

Interesting Talk by Thos. W. Lytle on What Makes a Cigar Popular.

The remarkable success of Wadsworth Bros' Chico cigar in getting into the mouths of smokers in Rushville is as astonishing.

Less than a year ago the Chico was unknown here. Today it is the most popular cigar in Rushville.

"Advertising alone will not make a cigar popular," said Mr. Lytle. "A cigar must be good to meet with a sale in this city. I do not know of a town where the smokers are as discriminating as they are in Rushville, and the fact that they have made Wadsworth Bros' Chico their favorite, speaks volumes for its quality. While it sells for 5c., it is better than the average ten cent, so that it reaches all classes of smokers. It is an all long Havana field cigar, and a good one, that I am glad to recommend to my customers.
